

CASABLANCA UNIVERSITY 2008

• Cassie U 101 - Casablanca Editing Made Easy

Monday & Tuesday

Two-day hands-on session ideal for Beginners or as a Review for Casablanca veterans. Work through the basic Casablanca Smart Edit menus used commonly to edit your video projects. Pre-requisite: participant should be familiar with Smart Edit menu layout. You should have viewed the Smart Edit Tutorial DVD and have explored the Casablanca menus.

• Cassie U 202 - The Next Level

Wednesday - Friday

Three-day hands-on session for Intermediate and Advanced Casablanca editors. We'll start by working through Smart Edit 7 building a short project with the benefits available in late versions of Smart Edit as well as the use of Power Key shortcuts. Then we will work with specific Casablanca software applications in a manner to provide you with the skills to transfer the techniques into your own work.

Pre-requisite: This session is not for beginners - participant should be comfortable with the basic operation of Smart Edit as we will not review/address basic operation .

Instead we will build on your previous knowledge/experience to help you make your Casablanca sing and zing! You'll learn to use some of the most powerful Casablanca software and apply combinations that can be applied in your own work.

Here is the agenda with specific operations and Casablanca software you will learn to use:

Wednesday

- Advanced Smart Edit with Power Key shortcuts
- Creative 'Sandbox' with BorderX, Filter Pack and Motion 3D
- BlueBox World: Creative KeyinPIP Studio 3D QuadCam
- Project Archival & Restoration

Thursday

- Advanced Photo Studio 2: Animations, Collages & Retouching
- Advanced Titling: Enhancing Fonts, Incorporating Graphics/Logos
- Deluxe Titler 3D
- Candy Factory
- Advanced Audio Operations with Audio Effects Pack
- Advanced Audio Mixing: Envelope, Correction & Sweetening

Friday

- Columbus 2: Animating Maps & Graphics
- DVD Authoring with Arabesk 4: Intricate menus with Main & Chapter menus
- Export Options: Sharing your work cross-platform, for Internet distribution and for Portable Media Players
